## EXPERIENCE

### AT&T (Business Solutions for Global & Mid-Markets)

Lead Training Manager Design

February 2023 - Present

- Designed, collaborated, developed, and implemented engaging and easy to understand graphics to ensure all elements of the learning program was cohesive, recognizable, and in compliance with AT&T Branding Standards.
- Ensure all graphic assets are accessible to the design team, leadership, and the consultants by using SharePoint as a repository.
- Provide guidance and feedback to peers to ensure graphics (including fonts, color schemes, and other visual treatments) are consistent throughout the program.
- Collaborated with other designers to create the look and feel of the on-line portal resources using WordPress.
- Design High Level Design Plans (HLDP) depicting client's gap, KPIs, proposed solution, milestones, responsibilities, estimated time of delivery, and dependencies.
- Project manage the design of various projects ensuring all parties involved complete their tasks efficiently and with impact.
- Manage contractor assignments ensuring deliverables are completed in alignment with the client's requests and in an efficient manner.

### AT&T (Customer Service & Operations)

Lead Training Manager Design

October 2010 - January 2023

- Created innovative and exciting training deliverables incorporating a variety of skills and tools including graphic design, script writing, motion graphics, video editing, video animation, portal design, web-based training, and more.
- Consult with clients and subject matter experts to gain an understanding of the business needs as it relates to the design of learning materials.
- Project manage the design of various projects ensuring all parties involved complete their tasks efficiently and with impact.
- Responsible for coaching and development of peers in leadership, design, and software skills.
- Led numerous workshops to teach peers how to use the Adobe Suite (Illustrator, Photoshop, and InDesign) to create visuals for their training deliverables.
